WINDOWS

FROM THE NOTTINGHAM WINDOW COMPANY

TIMBER ALTERNATIVE FLUSH WINDOWS

RESIDENCE 7

SLEEK ON THE INSIDE AND OUT

Residence 7 windows are a popular timber window alternative throughout Nottingham, Leicester, and Derby communities. As one of our best-selling window products, R7 windows deliver a modernized take on the original 19th Century flush sash timber window.

R7

Tradition Meets Technology

When it comes to modern flush sash technology, the Residence 7 window profile is unmatched in both quality & performance. Featuring an innovative 7 chambered structure and sleek 75mm wide frames, our R7 windows are A-rated as standard, can achieve A++ energy ratings with ease & can be double or triple glazed.

Accented with a Personal Touch

With 5 stylised glazing beads, classic Georgian bars, astragal bars, leaded lights & a wide range of luxury colour finishes, textured privacy glass & matching handles & hardware to choose from, Nottingham Windows gives you the freedom to create your forever home.

Industry-Leading Manufacturers

Displayed at our extensive window & door showroom in Nottingham, this time-honored style has been engineered to meet current & anticipated safety & performance standards. Offering an immense range of striking finishes & charming bespoke accessories to suit your distinct taste & style, this sophisticated window design provides a refined flush finish that refuses to compromise on cutting-edge thermal efficiency, acoustic performance, or security.

7 Chamber Design

Featuring a unique 7 chamber structure that's 75mm wide, combined with premier glazing from industry leaders Planitherm, Residence 7 windows surpass the majority of other window systems in both efficiency & style. Guaranteed to deliver superior thermal & acoustic performance wherever they're installed, this 7 chamber design can achieve U-values as low as 0.8W/m2.K with 44mm triple glazing.

Quality Manufacturing

Utilising modern welding techniques, R7 classic flush sash detailing includes visible contemporary seams, classic mechanical joints & authentic cill detailing. Made in the UK, Residence 7 windows will effortlessly keep the unpredictable British weather at bay. Often considered for restrictive conservation renovation projects, R7 windows retain authentic good looks & remain maintenance-free for longer.

Stylish Hardware

Amongst a variety of authentic hinges, handles & stays, our range includes elegant key locking Monkey Tail handles or heritage Pear Drop handles. Whether you're replacing like-for-like or wish to add a classic twist to more modern architectural stylings, we're certain we have a colour to suit your particular taste. Dedicated to quality, we use long-lasting, stylish window hardware, furniture & fixings as standard. A Style & Colour To Suit You

A Style & Colour To Suit You

Residence 7 windows can be customised in a broad range of luxurious shades, including versatile dual colour options. From life-like woodgrain effects such as grand 'English Oak' & specialist 'Grained White' to classic 'Vintage Cream' & 'Cotswold Green' & contemporary shades like 'Eclectic Grey' & neutral 'Painswick'. Nottingham Windows match your vision perfectly.

R7

FLUSH SASH WINDOWS

RESIDENCE 9

A CLEVER BLEND OF OLD AND NEW

Seamlessly duplicating the historical flush sash window design that's been around for centuries, these life-like sightlines are often considered for restrictive conservation renovation projects throughout Nottingham, Leicester, and Derby. Staying true to their original form, R9 windows feature beautifully deep decorative detailing on the inside & a timeless flush exterior on the outside.

R9

R9

Tradition Meets Technology

When it comes to modern flush sash technology, the Residence 9 window profile is unmatched in both quality & performance. Featuring an innovative 9 chambered structure and front & back 100mm wide frames, our R9 windows are A-rated as standard, can achieve A++ energy ratings with ease & can be double or triple glazed. Conforming to PAS 23 & 24 security specifications & Document Q performance benchmarks as standard, secure peace of mind also plays an integral role with these convincing flush sash windows. Secured with internal beading & multi-point locking, R9 windows effectively keep warmth in & intruders out. Furthermore, a practical butt hinge option provides extra confidence as an ideal solution for fire escape windows.

Accented with a Personal Touch

With 5 stylised glazing beads, classic Georgian bars, astragal bars, leaded lights & a wide range of luxury colour finishes, textured privacy glass & matching handles & hardware to choose from, Nottingham Windows gives you the freedom to create your forever home.

R9

9 Chamber Design

Featuring a unique 9 chamber structure that's 100mm wide, combined with premier glazing from industry leaders Planitherm, Residence 9 windows surpass the majority of other window systems in both efficiency & style.

Guaranteed to deliver superior thermal & acoustic performance wherever they're installed, this 9 chamber design can achieve U-values as low as 0.8W/m².K with 44mm triple glazing.

Stylish Hardware

Amongst a variety of authentic hinges, handles & stays, our range includes elegant key locking Monkey Tail handles or heritage Pear Drop handles. Whether you're replacing like-for-like or wish to add a classic twist to more modern architectural stylings, we're certain we have a colour to suit your particular taste. Dedicated to quality, we use long-lasting, stylish window hardware, furniture & fixings as standard.

A Style & Colour To Suit You

Readily available in versatile dual colour options, Residence 9 windows can be seamlessly matched with existing furnishings, thanks to a handpicked collection of stunning heritage colours on offer. From life-like woodgrain effects such as subtle 'Irish Oak' & weathered 'Silvered Oak', to vintage 'Cotswold Biscuit' & 'Cotswold Green' & contemporary shades like 'Eclectic Grey' & versatile 'No.10 Black'. Nottingham Windows match your vision perfectly.

70MM UPVC WINDOW SYSTEM KÖMMERLING C70

70

PERFECT WINDOW ENGINEERING

KÖMMERLING 70. Tried, Tested and Trusted.

C70 Casement Window

Featuring a unique 9 chamber structure that's 100mm wide, combined with premier glazing from industry leaders Planitherm, Residence 9 windows surpass the majority of other window systems in both efficiency & style.

Guaranteed to deliver superior thermal & acoustic performance wherever they're installed, this 9 chamber design can achieve U-values as low as 0.8W/m².K with 44mm triple glazing.

The feel good window

Our KÖMMERLING 70 window and door system helps you to fulfil your need for a light enriched living environment with a well ventilated atmosphere. It also makes optimum use of sunlight to reduce heating costs, even when the outdoor temperature is cold.

Keeping you warm, whatever the weather

Amongst a variety of authentic hinges, handles & stays, our range includes elegant key locking Monkey Tail handles or heritage Pear Drop handles. Whether you're replacing like-for-like or wish to add a classic twist to more modern architectural stylings, we're certain we have a colour to suit your particular taste. Dedicated to quality, we use long-lasting, stylish window hardware, furniture & fixings as standard.

- Low line gaskets and weatherseals provide lasting performance and slimmer sightlines.
- The full depth, central eurogroove helps make the windows and doors more secure.
- Five chambered system is more energy efficient than the three chambered designs from many of our competitors.
- Steel reinforcement is used where needed, to add additional structural strength.
- The chamfered design of C70 Gold® gives a modern and clean look through the frame, sash and glazing bead.

YOUR HOME | BROCHURE 2021

76MM UPVC WINDOW SYSTEM KÖMMERLING C76

NEXT GENERATION WINDOWS

Unrivalled innovation.

C76 Casement Window

This traditional casement window offers unrivalled levels of weathering, thermal and acoustic performance and is also capable of large opening sizes, like our flush sash. It's also the ultimate window for exposed and coastal locations and with the use of dummy sashes can also offer perfectly symmetrical sightlines as is the current design philosophy.

Heat can get in but not out

Amongst a variety of authentic hinges, handles & stays, our range includes elegant key locking Monkey Tail handles or heritage Pear Drop handles. Whether you're replacing like-for-like or wish to add a classic twist to more modern architectural stylings, we're certain we have a colour to suit your particular taste. Dedicated to quality, we use long-lasting, stylish window hardware, furniture & fixings as standard.

More light, healthier life

Light is essential to human survival. It makes us feel happy and enhances our sense of general well-being. That's why a well-lit and inviting interior is an important aspect of an ideal living environment. KÖMMERLING 76 helps you to fulfil your dream of a light-flooded living environment with a pleasant atmosphere.

- Intelligent profile design for optimised window stability.
- Narrow profiles maximise light incidence.
- Higher solar energy gains additionally reduce heating costs.
- With standard windows, the high insulation double seal system with 76 mm construction depth already achieves a U_f value of $1.1 \text{ W}/(\text{m}^2\text{K})$.

CLASSIC VERTICAL
SASH WINDOWS

ROSEVIEW HERITAGE ROSE

Oozing charm and character

Designed with all the traditional detailing found in period and victorian windows, Heritage Rose sash windows are a highly customisable and comes in a range of colours to suit individual needs. A number of decorative features such as authentic astragal bars and run-through sash horns ensure complete authenticity and make this window virtually indistinguishable from a timber original.

Modern Benefits

Heritage Rose uPVC sash windows may have been designed with authenticity in mind, but not at the cost of modern features and benefits. It's energy efficient; Heritage Rose sash windows are 'A' rated as standard. It also offers excellent acoustic performance helping to block out external noise, and is PAS 24 accredited, meaning that it is strong and secure. This can be enhanced even further with optional Secured by Design rating. Like every window in the Rose Collection, both sashes tilt inwards to make them easy to clean from the inside. And best of all, Heritage Rose sash windows are easy to operate, very low maintenance and never needs repainting.

Run-through horns

Using a simple and bespoke horn design which – crucially – is topped off with a flush fitting cap, the result is the most authentic run-through horn you can get. We could have gone down the easy route and designed a bold horn with a “hide all sins” wraparound horn cap. But at Roseview we’re not interested in just finding the easiest path; we’re about making the best, most authentic windows we can.

Slim sightlines

The Rehau Heritage VS profile is the envy of the industry, as it has – quite simply – the slimmest sightlines available. It has flat putty-style external glass lines and subtly-moulded internal ones, which are fully matched on the astragal bars. It also has triple-sealed concealed brushpiles, silver or white gaskets (so that they don’t stand out like black does) and an authentic deep bottom rail.

Fully customisable

Using a simple and bespoke horn design which – crucially – is topped off with a flush fitting cap, the result is the most authentic run-through horn you can get. We could have gone down the easy route and designed a bold horn with a “hide all sins” wraparound horn cap. But at Roseview we’re not interested in just finding the easiest path; we’re about making the best, most authentic windows we can.

ALUMINIUM
WINDOWS

SMART ALITHERM 600

THE PERFECT COMBINATION OF AESTHETICS, PERFORMANCE, DURABILITY AND SECURITY

Until recently, aluminium windows have typically featured in large commercial developments that require more light. However, the 'more glass, less frame' approach has captured the imagination of aspirational homeowners throughout Nottingham, Leicester, and Derby. State-of-the-art aluminium windows can be customised in a range of quality configurations, including top, bottom or side hung, and fixed light, multi-light, and French casement options. Available in a variety of styles & frame widths, aluminium windows offer an unparalleled lightweight strength designed for minimalist interiors that value security, efficiency & sustainability in equal measures.

Why choose aluminium?

This versatile range of profiles can provide many solutions for residential and light commercial applications. It can create traditional casement windows inspired by the elegance and styling of timber products, or contemporary style windows designed for modern homes or offices. Alitherm profiles utilise Smart's innovative polyamide thermal break technology which creates a barrier between the cold air outside and the warm air inside. This technology significantly reduces thermal transmittance and enhances the overall U Value of a product and is designed to meet the exacting requirements of Document L 2010.

Versatility

With a life-span measured in decades rather than years, together with extremely low maintenance requirements, aluminium has become the perfect choice for home owners.

All our systems are designed with performance, style and efficiency in mind, with each frame incorporating a 'thermal-break' to insulate it against heat loss, raise the internal temperature of your house and help reduce the risk of condensation.

ALUMINIUM
WINDOWS

SMART ALITHERM HERITAGE

PERFECT FOR SENSITIVE REFURBISHMENT AND RENEWAL WORK

The Alitherm Heritage ranges have been designed specifically to meet the needs of refurbishment projects, particularly in sensitive planning areas. Ideal for Victorian and Art Deco projects, our windows and balcony doors are proven in a wide range of renovation and heritage projects across the UK. Providing a modern, like-for-like replacement for traditional steel materials, Alitherm Heritage is the ideal solution for projects where planning or design demands dictate the installation of sympathetic materials - even for listed buildings.

The Alitherm Heritage door and window ranges both feature the slim profiles and sight lines that are associated with traditional steel windows.

However, the system's timeless elegance is also accompanied by the outstanding thermal performance of a modern aluminium system – each delivering a 'B' Energy Rating. Alitherm Heritage Windows are also available as a tilt turn option.

MAKE IT DISTINCTIVE
MAKE IT STRIKING

SLIDE & FOLDING
DOORS

VISO FOLD RANGE

Available in a range of opening configurations to suit any application, Visofold doors can be folded internally or externally and with the opening at the side (so the sashes all fold one way), at one end (to create a single entrance door) or in the middle (to give the option of a double door).

Visofold's flexibility makes it the ideal choice for projects where large, uninterrupted openings are required, with the system providing maximum light and space to give unimpeded views. The highly-versatile, easy-to-operate system is the perfect option for even the largest project, capable of opening up an entire wall, yet presenting a contemporary, elegant glazed façade when closed.

All Visofold profiles feature a thermal break to deliver enhanced thermal performance and energy efficiency and security is assured by multi-point lock mechanisms on the main opening sashes, and shoot-bolt locks on the 'floating' mullions. The doors can have either a low threshold for unimpeded access, or a rebated threshold for improved weather resistance.

Visofold doors are available in a choice of standard or non-standard colours, including metallic, wood-structure, dual colour and Smart's unique Sensations range of textured finishes.

VISOFOLD 1000

Kitemarked and security-tested to the PAS24 standard, Visofold 1000 slide-folding doors features a choice of internally or externally folding panels, which when open help to integrate your home's external and internal living spaces, offering uninterrupted views.

VISOFOLD 6000

The latest addition to our range, Visofold 6000 is a high-quality, high-performance slide and fold door. Featuring the slimmest profiles currently available in the Smart range, the system provides a contemporary, elegant solution for both residential and commercial applications.

SLIDING DOORS

**CREATE A RELAXED FEELING
OF LIGHT AND SPACE**

SLIDING DOORS

Our sliding doors provide the maximum light and afford the most unobstructed views of any system when closed and with our wide range of systems and options, you can select and tailor a door system to exactly meet your own specific requirements. With a choice of frame sizes, sliding formats and two, three and four pane systems, together with a choice of high-quality hardware and a wide range of colour options, the slim lines of these elegant doors make them the perfect solution for any home.

VISOGLIDE PLUS

Combining the benefits of a large picture window, which allows light to flood in to an internal space, with an easy opening operation, Visoglide Plus is a high quality, highly versatile system which is a great option for even the largest project. Delivering outstanding thermal efficiency, Visoglide Plus offers contemporary styling and robust performance, with the option of slide, or lift and slide operation on double or triple tracks.
